

# Continuous AI-Powered Monthly Advisory Program

## The Challenge

Foundational training and policies are critical first steps in building your AI capability. However, because AI tools and industry standards evolve rapidly, protecting that initial investment requires ongoing expert support. A dedicated advisory partnership ensures your prompt libraries stay current, your policies adapt seamlessly to new standards, and your staff continuously refine their skills—transforming a successful launch into a long-term operational advantage.

## Our Value Proposition

Maximize the value of your initial AI investment with a sustainable operational edge that grows month over month. By providing evolving tools, real-time compliance security, and clear board-ready metrics, our monthly support ensures your team works faster, safer, and with measurable results—all on your own terms and without long-term contracts.

### FOUNDATION

- Monthly advisory call
- Prompt library quarterly review
- IIA standards monitoring alerts
- **Unlimited email support**
- Monthly advisory summary

**Best for:** Teams with established governance needing expert oversight.

### PROFESSIONAL

**Everything in Foundation, PLUS:**

- Prompt library monthly updates
- Policy updates as standards change
- Quarterly AI capability assessment
- Escalation support

**Best for:** Most organizations — comprehensive monthly partnership.

### EXECUTIVE

**Everything in Professional, PLUS:**

- Bi-weekly advisory calls
- Board/committee presentation support
- 30-day post-delivery Q&A support
- **Dedicated response SLA (24 Business hrs)**

**Best for:** large functions or CAEs with audit committee AI reporting obligations.

**Your AI capability shouldn't plateau after training ends.**

Schedule a discovery call to determine the right advisory level for your function.

# Continuous AI-Powered Monthly Advisory Program

## Continuous AI Audit Intelligence

AI governance isn't a project you complete. It's a practice you sustain. New tools emerge. IIA guidance is revised. Disclosure expectations shift. Your prompt library needs refreshing. Your team's questions don't stop when training ends. The Continuous AI Audit Intelligence program exists for exactly this reason — to give your team ongoing access to specialized expertise that keeps what you built working and improving over time.

## WHY AUDIT FUNCTIONS CHOOSE THIS PROGRAM

### Built on What You Already Have

We work with you to optimize your existing prompt library, training, and governance frameworks, ensuring they stay current, tested, and effective.

### A Strategic Partner, Not Just a Vendor

Monthly advisory calls give your leadership direct access to specialized AI expertise for strategic decisions, emerging standards, and complex challenges.

### Documented Ongoing Governance

Quarterly assessments deliver audit-committee-ready proof of your active AI governance—moving beyond static, one-time training certificates.

## Key Benefits

- ✔ Monthly 60-minute advisory call with a subject matter expert
- ✔ Quarterly AI capability assessment for the function
- ✔ Policy and standards monitoring — IIA, and regulatory.

Schedule a discovery call to define how to reinforce your team's AI investment.
