

THE AUDIT FUNCTION OF 2035

Bridging the Gap to Vision 2035

The IIA's Vision 2035 imagines audit teams as strategic advisors powered by advanced AI. Yet, many functions currently lack the data capabilities to survive a landscape where AI is already displacing entry-level tasks.

This session delivers a practical roadmap to bridge the massive gap between where you are today and where you need to be. Skip the theory and walk away with an honest capability assessment, a customized target state across 10 key dimensions, and a concrete 90-day action plan ready to launch on Monday morning.

★ Understand Vision 2035 and the massive implementation gap most audit functions face

★ Build 90-day quick wins plan and Year 1 implementation roadmap with quarterly milestones

★ Assess current maturity across 10 critical capability dimensions. Apply the 4-level maturity model

★ Avoid common pitfalls that derail transformation efforts
